Subject: Microsoft Settlement

I am a long time consumer of Microsoft product software who thinks that your DOJ settlement of the antitrust case was fair and proper.

I do not feel that I have paid excessively for Microsoft's products, and have always had sufficient choice in tailoring my software to my own needs. I do not understand the 9 states, including my own, Florida, who want to punish Microsoft further for its past successes. None of those power-hungry attorney generals really has the end-user's interests in mind. Enough is enough.

One fact is sure. Microsoft will include the lawyer fees they have paid in this law suit in pricing their future products. Please just stop all of this lawyer-profiteering at the expense of consumers like me--NOW! Tell the 9 states to cease and desist. By doing so, you are looking after MY interests!
